

Foul weather gear.

Neonode® zForce® touch interaction gives you total control – even when you're wearing gloves.

Add versatility and performance to your equipment by including zForce optical sensing technology to any display or surface—even in the most demanding environments.

Don't settle for ordinary touch controls or display panels when you can design in a reliable, rugged and economical zForce into your next product today!

Climate Independent

Outfit your display for bad weather or dirty environments with easily adjustable detection distance.

Gloves On!

Neonode Touch Sensors work with all gloved hands—regardless of glove material or thickness.

Light Resistant

Neonode Technology works in environments with intense or glaring light without any aging effect.

No Electromagnetic Interference (EMI)

Neonode Sensors provide reliable interaction without EMI issues in sensitive environments.

Temperature Robustness

Neonode Touch Sensors add interaction to any surface in hot or cold temperatures without degradation.

Over 68 million consumer products and 4 million cars have used zForce. Contact your regional Neonode Sales Representative to design zForce Optical Sensors into your next application.
